Capitol Teachers

Capitol Teachers was founded by Elisabeth Kraemer and JoAnn Hill, former DC Public School teachers who each bring 17 years of classroom experience and a deep understanding of student learning. During the COVID-19 pandemic, they saw firsthand how deeply students were impacted as classrooms shifted, routines were disrupted, and in-person learning and social interaction became limited. Many students experienced gaps in both academic progress and confidence. Recognizing a clear need for consistent, high-quality support during this unprecedented time, they launched Capitol Teachers to help students regain momentum and feel supported both academically and emotionally.

What began as a response to a critical moment has grown into a trusted tutoring company serving students in grades K–12 across all subject areas, as well as offering specialized support for college test preparation and high school entrance exams. In recent years, Capitol Teachers has expanded its personalized approach to include targeted SAT and ACT support. Teachers use diagnostic scores to design highly differentiated instruction, allowing students to focus on specific skill gaps and improve their performance in a relatively short period of time. Across all services, Capitol Teachers provides personalized, one-on-one instruction tailored to each student's unique needs, whether they are building foundational skills, strengthening subject mastery, or preparing for high-stakes assessments. The company's approach emphasizes not only academic growth, but also confidence-building, consistency, and meaningful student-teacher relationships.

A defining feature of Capitol Teachers is its team of approximately 30 highly qualified educators. The company works exclusively with experienced teachers who bring classroom expertise, a deep understanding of curriculum, and proven instructional strategies. This intentional focus ensures that every student is supported by a professional educator who understands how to meet students where they are and help them move forward with clarity and purpose.

Equally important is Capitol Teachers' thoughtful matching process. Elisabeth and JoAnn take great care in pairing each student with a tutor whose experience, background, and areas of expertise align with the student's specific goals and learning style. This personalized approach fosters strong connections and drives measurable progress over time. At its core, Capitol Teachers is built on the belief that the right teacher can make all the difference in a student's academic journey.
